State Environmental Quality Review Negative Declaration Notice of Determination of Significance

This notice is issued pursuant to Part 617 of the implementing regulations pertaining to Article 8 (State Environmental Quality Review Act - SEQRA) of the Environmental Conservation Law.

The City of Troy Planning Board as lead agency, has determined that the proposed action described below will not have a significant environmental impact and a Draft Environmental Impact Statement will not be prepared.

Name of Action: Redevelopment of the former City Hall site and the adjacent Riverfront Park.

SEQR Status	Type 1	
	Unlisted	
Positive Declaration		
Negative Declaration	n	\checkmark
Conditioned Negative	e Declaration	

Description of Action:

The action involves the redevelopment of the former City Hall site and the adjacent Riverfront P ark.

Location: 1 Monument Square, Troy New York 12180

Reasons Supporting This Determination:

(see 617.7(a)-(c) for requirements of this determination; see 617.7 (d) for Conditioned Negative Declaration)

The City of Troy Planning Board has reviewed the project using the criteria provided in § 617.4 of the SEQRA and has declared this action an Unlisted Action because the Action **does not** meet any of the following criteria:

- (1) the adoption of a municipality's land use plan, the adoption by any agency of a comprehensive resource management plan or the initial adoption of a municipality's comprehensive zoning regulations;
- (2) the adoption of changes in the allowable uses within any zoning district, affecting 25 or more acres of the district;
- (3) the granting of a zoning change, at the request of an applicant, for an action that meets or exceeds one or more of the thresholds given elsewhere in this list;
- (4) the acquisition, sale, lease, annexation or other transfer of 100 or more contiguous acres of land by a state or local agency;
- (5) construction of new residential units that meet or exceed the following thresholds:
- (i) 10 units in municipalities that have not adopted zoning or subdivision regulations;
- (ii) 50 units not to be connected (at the commencement of habitation) to existing community or public water and sewerage systems including sewage treatment works;
- (iii) in a city, town or village having a population of less than 150,000, 250 units to be connected (at the commencement of habitation) to existing community or public water and sewerage systems including sewage treatment works;
- (iv)-in a city, town or village having a population of greater than 150,000 but less than 1,000,000, 1,000 units to be connected (at the commencement of habitation) to existing community or public water and sewerage systems including sewage treatment works; or

- (v) in a city or town having a population of greater than 1,000,000, 2,500 units to be connected (at the commencement of habitation) to existing community or public water and sewerage systems including sewage treatment works;
- (6) activities, other than the construction of residential facilities, that meet or exceed any of the following thresholds; or the expansion of existing nonresidential facilities by more than 50 percent of any of the following thresholds:
- (i) a project or action that involves the physical alteration of 10 acres;
- (ii) a project or action that would use ground or surface water in excess of 2,000,000 gallons per day;
- (iii) parking for 1,000 vehicles;
- (iv) in a city, town or village having a population of 150,000 persons or less, a facility with more than 100,000 square feet of gross floor area;
- (v) in a city, town or village having a population of more than 150,000 persons, a facility with more than 240,000 square feet of gross floor area;
- (7) any structure exceeding 100 feet above original ground level in a locality without any zoning regulation pertaining to height;
- (8) any Unlisted action that includes a nonagricultural use occurring wholly or partially within an agricultural district (certified pursuant to Agriculture and Markets Law, article 25-AA, sections 303 and 304) and exceeds 25 percent of any threshold established in this section;
- (9) any Unlisted action (unless the action is designed for the preservation of the facility or site) occurring wholly or partially within, or substantially contiguous to, any historic building, structure, facility, site or district or prehistoric site that is listed on the National Register of Historic Places, or that has been proposed by the New York State Board on Historic Preservation for a recommendation to the State Historic Preservation Officer for nomination for inclusion in the National Register, or that is listed on the State Register of Historic Places (The National Register of Historic Places is established by 36 Code of Federal Regulation (CFR) Parts 60 and 63, 1994 (see section 617.17 of this Part));
- (10) any Unlisted action, that exceeds 25 percent of any threshold in this section, occurring wholly or partially within or substantially contiguous to any publicly owned or operated parkland, recreation area or designated open space, including any site on the Register of National Natural Landmarks pursuant to 36 CFR Part 62, 1994 (see section 617.17 of this Part); or

The City of Troy Planning Board has reviewed the project using criteria provided in §617.7 of the SEQRA and has determined that this action is a Negative Declaration for the following primary reasons:

- (i) there will be no substantial adverse change in existing air quality, ground or surface water quality or quantity, traffic or noise levels; a substantial increase in solid waste production; a substantial increase in potential for erosion, flooding, leaching or drainage problems;
- (ii) there will be no removal or destruction of large quantities of vegetation or fauna; substantial interference with the movement of any resident or migratory fish or wildlife species; impacts on a significant habitat area; substantial adverse impacts on a threatened or endangered species of animal or plant, or the habitat of such a species; or other significant adverse impacts to natural resources;
- (iii) there will be no impairment of the environmental characteristics of a Critical Environmental Area as designated pursuant to subdivision 617.14(g) of this Part;
- (iv) there will be no creation of a material conflict with a community's current plans or goals as officially approved or adopted;
- (v) there will be no impairment of the character or quality of important historical, archeological, architectural, or aesthetic resources or of existing community or neighborhood character;
- (vi) there will be no major change in the use of either the quantity or type of energy;
- (vii) there will be no creation of a hazard to human health;
- (viii) there will be no substantial change in the use, or intensity of use, of land including agricultural, open space or recreational resources, or in its capacity to support existing uses;
- (ix) there will be no encouraging or attracting of a large number of people to a place or places for more than a few days, compared to the number of people who would come to such place absent the action;
- (x) there will be no creation of a material demand for other actions that would result in one of the above consequences;

- (xi) there will be no changes in two or more elements of the environment, no one of which has a significant impact on the environment, but when considered together result in a substantial adverse impact on the environment; or
- (xii) this action, is not relate to two or more related actions undertaken, funded or approved by an agency, none of which has or would have a significant impact on the environment, but when considered cumulatively would meet one or more

If Conditioned Negative Declaration, provide on attachment the specific mitigation measures imposed, and identify comment period (not less than 30 days from date of publication in the ENB)

617.20 Appendix A State Environmental Quality Review FULL ENVIRONMENTAL ASSESSMENT FORM

Purpose: The full EAF is designed to help applicants and agencies determine, in an orderly manner, whether a project or action may be significant. The question of whether an action may be significant is not always easy to answer. Frequently, there are aspects of a project that are subjective or unmeasurable. It is also understood that those who determine significance may have little or no formal knowledge of the environment or may not be technically expert in environmental analysis. In addition, many who have knowledge in one particular area may not be aware of the broader concerns affecting the question of significance.

The full EAF is intended to provide a method whereby applicants and agencies can be assured that the determination process has been orderly, comprehensive in nature, yet flexible enough to allow introduction of information to fit a project or action.

Full EAF Components: The full EAF is comprised of three parts:

- Part 1: Provides objective data and information about a given project and its site. By identifying basic project data, it assists a reviewer in the analysis that takes place in Parts 2 and 3.
- Part 2: Focuses on identifying the range of possible impacts that may occur from a project or action. It provides guidance as to whether an impact is likely to be considered small to moderate or whether it is a potentially-large impact. The form also identifies whether an impact can be mitigated or reduced.
- Part 3: If any impact in Part 2 is identified as potentially-large, then Part 3 is used to evaluate whether or not the impact is actually important.

PART 1--PROJECT INFORMATION Prepared by Project Sponsor

NOTICE: This document is designed to assist in determining whether the action proposed may have a significant effect on the environment. Please complete the entire form, Parts A through E. Answers to these questions will be considered as part of the application for approval and may be subject to further verification and public review. Provide any additional information you believe will be needed to complete Parts 2 and 3.

It is expected that completion of the full EAF will be dependent on information currently available and will not involve new studies, research or investigation. If information requiring such additional work is unavailable, so indicate and specify each instance.

The City of Troy has engaged a consultant to assist with the redevel structure. The redevelopment of the City Hall site represents a sing to the Hudson Riverfront, linking the riverfront and downtown; [2] a new structure(s) on part of the site. The City of Troy will develop a public/private partnership to redeve development that will include a building(s) that will provide space tuses. The new building(s) will be complementary to downtown's with character of the surrounding architecture. Furthermore, through the services of a second consultant the City of the redevelopment of Riverfront Park. This project provides an opp Troy's Downtown, improve linkages to the north and south of the P program \$1.75 million in funding recently secured for Park improve	ular opportunity to: [1] Visual Create a dramatic southern exclop the Project Area to include hat may include retail, communicate front and downtown setting or will prepare a Plan and cortunity to improve the connects, remedy the Park's existing	ally and physically enhance public access narrance to Riverfront Park; and, [3] Build de a public park as part of a mixed use nercial, governmental and/or residential ing and compatible with the scale and develop detailed design documents for sections between the Riverfront Park and

Please Complete Each Question--Indicate N.A. if not applicable

A. SITE DESCRIPTION Physical setting of overall project, both developed and undeveloped areas. Residential (suburban) Rural (non-farm) Commercial Industrial 1. Present Land Use: Urban Other Municipal Agriculture Total acreage of project area: 6.1 acres. PRESENTLY AFTER COMPLETION APPROXIMATE ACREAGE Meadow or Brushland (Non-agricultural) acres acres Forested acres acres Agricultural (includes orchards, cropland, pasture, etc.) acres ____ acres Wetland (Freshwater or tidal as per Articles 24,25 of ECL) acres acres Water Surface Area acres ____ acres Unvegetated (Rock, earth or fill) acres ____ acres 2.1 acres 2.1 acres Roads, buildings and other paved surfaces 4 acres 4 acres Other (Indicate type) _ What is predominant soil type(s) on project site? Disturbed fill Moderately well drained 100% of site. Well drained ____ % of site Soil drainage: Poorly drained _____% of site If any agricultural land is involved, how many acres of soil are classified within soil group 1 through 4 of the NYS Land Classification System? _____ acres (see 1 NYCRR 370). 4. Are there bedrock outcroppings on project site? a. What is depth to bedrock ____N/A (in feet) 5. Approximate percentage of proposed project site with slopes: 15% or greater 15 % 0-10% 85% 10- 15% _____% 6. Is project substantially contiguous to, or contain a building, site, or district, listed on the State or National Registers of No. Historic Places? Yes No. Is project substantially contiguous to a site listed on the Register of National Natural Landmarks? What is the depth of the water table? ____N/A (in feet) M No 9. Is site located over a primary, principal, or sole source aquifer? M No 10. Do hunting, fishing or shell fishing opportunities presently exist in the project area?

1. Does project site contain any species of plant or animal life that is identified as threatened or endangered?	۷٥
According to:	
Identify each species:	
	A. Desir Parker have no
2. Are there any unique or unusual land forms on the project site? (i.e., cliffs, dunes, other geological formations?	<u> </u>
Yes No	
Describe:	
13. Is the project site presently used by the community or neighborhood as an open space or recreation area?	
Yes No	
If yes, explain:	
Park	THE STATE OF THE S
Protitori prompti	
14. Does the present site include scenic views known to be important to the community? Yes No	
Riverscape	
15. Streams within or contiguous to project area:	
Hudson River	
a. Name of Stream and name of River to which It is tributary	
	Hillian Sayuneans)
16. Lakes, ponds, wetland areas within or contiguous to project area:	
	1
b. Size (in acres):	
	Anna Contraction of the Contract
	1

17.	s the site served by existing public utilities?	
	If YES, does sufficient capacity exist to allow connection?	
	o. If YES, will improvements be necessary to allow connection?	
18.	s the site located in an agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 30:	3 and
19.	s the site located in or substantially contiguous to a Critical Environmental Area designated pursuant to Article 8 of the Environmental Area designated pursu	ECL,
20.	Has the site ever been used for the disposal of solid or hazardous wastes?	
В.	Project Description .	
1.	Physical dimensions and scale of project (fill in dimensions as appropriate).	
	Total contiguous acreage owned or controlled by project sponsor: 6.1 acres.	
	p. Project acreage to be developed: 6.1 acres initially; 6.1 acres ultimately.	
	. Project acreage to remain undeveloped: acres.	
	Length of project, in miles:(if appropriate)	
	If the project is an expansion, indicate percent of expansion proposed%	
	. Number of off-street parking spaces existing <u>N/A</u> ; proposed	
	. Maximum vehicular trips generated per hour: (upon completion of project)?	
	n. If residential: Number and type of housing units:	
	One Family Two Family Multiple Family Condominium	1
	Initially	
	Ultimately	_
	. Dimensions (in feet) of largest proposed structure: <u>N/A</u> height; width; length.	
	. Linear feet of frontage along a public thoroughfare project will occupy is?ft.	
2.	How much natural material (i.e. rock, earth, etc.) will be removed from the site?tons/cubic yards.	
3.	Will disturbed areas be reclaimed Yes No N/A	
	a. If yes, for what intended purpose is the site being reclaimed?	
	o. Will topsoil be stockpiled for reclamation?	
	. Will upper subsoil be slockpiled for reclamation?	
1	How many acres of vegetation (trees, shrubs, ground covers) will be removed from site? ()	

5.	Will any mature forest (over 100 years old) or other locally-important vegetation be removed by this project?
	Yes No
6.	If single phase project: Anticipated period of construction: months, (including demolition)
7.	If multi-phased:
	a. Total number of phases anticipated 2 (number)
	b. Anticipated date of commencement phase 1:9 month 2010 year, (including demolition)
	c. Approximate completion date of final phase: 9 month 2013 year.
	d. Is phase 1 functionally dependent on subsequent phases? Yes 💌 No
8.	Will blasting occur during construction? Yes No.
9.	Number of jobs generated: during construction N/A; after project is complete
10.	. Number of jobs eliminated by this project N/A.
11.	. Will project require relocation of any projects or facilities? Yes No
	If yes, explain:
	•
12.	. Is surface liquid waste disposal involved? Yes No
	a. If yes, indicate type of waste (sewage, industrial, etc) and amount
	b. Name of water body into which effluent will be discharged
13.	. Is subsurface liquid waste disposal involved? Yes B No Type
14.	. Will surface area of an existing water body increase or decrease by proposal? Yes No
	If yes, explain:
15	. Is project or any portion of project located in a 100 year flood plain?
16	. Will the project generate solid waste? The Yes No
ς	a. If yes, what is the amount per month? <u>N/A</u> tons
	b. If yes, will an existing solid waste facility be used? PYes No
	c. If yes, give name Colonic Landfill ; location Colonic, NY
	d. Will any wastes not go into a sewage disposal system or into a sanitary landfill?

e.	If yes, explain:
Pictor	
17.	Will the project involve the disposal of solid waste? Yes Mo
	a. If yes, what is the anticipated rate of disposal? tons/month.
	b. If yes, what is the anticipated site life? years.
18.	Will project use herbicides or pesticides? Yes No
19.	Will project routinely produce odors (more than one hour per day)? Yes No
20.	Will project produce operating noise exceeding the local ambient noise levels? Yes 🖪 No
21.	Will project result in an increase in energy use? Yes No
	If yes, indicate type(s)
ľ	
22.	. If water supply is from wells, indicate pumping capacity gallons/minute.
23.	Total anticipated water usage per day gallons/day.
24.	Does project involve Local, State or Federal funding? 🔞 Yes 📗 No
	f yes, explain:
Eı	nvironmental Protection Fund
	·

If the action is in the Coastal Area, and you are a state agency, complete the Coastal Assessment Form before proceeding with this assessment.

PART 2 - PROJECT IMPACTS AND THEIR MAGNITUDE

Responsibility of Lead Agency

General Information (Read Carefully)

- In completing the form the reviewer should be guided by the question: Have my responses and determinations been reasonable? The reviewer is not expected to be an expert environmental analyst.
- The Examples provided are to assist the reviewer by showing types of impacts and wherever possible the threshold of magnitude that would trigger a response in column 2. The examples are generally applicable throughout the State and for most situations. But, for any specific project or site other examples and/or lower thresholds may be appropriate for a Potential Large Impact response, thus requiring evaluation in Part 3.
- The impacts of each project, on each site, in each locality, will vary. Therefore, the examples are illustrative and have been offered as guidance. They do not constitute an exhaustive list of impacts and thresholds to answer each question.
- The number of examples per question does not indicate the importance of each question.
- In identifying impacts, consider long term, short term and cumulative effects.

Instructions (Read carefully)

- Answer each of the 20 questions in PART 2. Answer Yes if there will be any impact.
- Maybe answers should be considered as Yes answers.
- c. If answering Yes to a question then check the appropriate box(column 1 or 2)to indicate the potential size of the impact. If impact threshold equals or exceeds any example provided, check column 2. If impact will occur but threshold is lower than example, check column 1.
- d. Identifying that an Impact will be potentially large (column 2) does not mean that it is also necessarily significant. Any large impact must be evaluated in PART 3 to determine significance. Identifying an impact in column 2 simply asks that it be looked at further.
- e. If reviewer has doubt about size of the impact then consider the impact as potentially large and proceed to PART 3.
- f. If a potentially large impact checked in column 2 can be mitigated by change(s) in the project to a small to moderate impact, also check the Yes box in column 3. A No response indicates that such a reduction is not possible. This must be explained in Part 3.

T	Proposed Action would use water in excess of 20,000 gallons per day.			Yes No
T	Proposed Action will likely cause siltation or other discharge into an existing body of water to the extent that there will be an obvious visual contrast to natural conditions.	1 5		Yes No
ī	Proposed Action will require the storage of petroleum or chemical products greater than 1,100 gallons.		7/0-1-1	Yes No
Т	Proposed Action will allow residential uses in areas without water and/or sewer services.	2 2		Yes No
Т	Proposed Action locates commercial and/or industrial uses which may require new or expansion of existing waste treatment and/or storage facilities.		1	Yes No
T	Other impacts:			Yes No
				17

		Small to Moderate Impact	Polential Large Impact	3 Can Impact Be Miligated by Project Change
6.	Will Proposed Action after drainage flow or patterns, or surface runoff? NO YES	e water		
	Examples that would apply to column 2 T Proposed Action would change flood water flows			Yes No
	T Proposed Action may cause substantial erosion.			Yes No
	T Proposed Action is incompatible with existing drainage pa	atterns.	:	Yes No
	T Proposed Action will allow development in a designated floodway.			Yes No
	T Other impacts:			Yes No
	IMPACT ON AIR			
7.	Will Proposed Action affect air quality?			
	Examples that would apply to column 2 7 Proposed Action will induce 1,000 or more vehicle trips in given hour.	any		Yes No
	T Proposed Action will result in the incineration of more than of refuse per hour.	1 ton	d de	Yes No
	T Emission rate of total contaminants will exceed 5 lbs. per or a heat source producing more than 10 million BTU's pe hour.			Yes No
	7 Proposed Action will allow an increase in the amount of la committed to industrial use.	nd		Yes No
	Proposed Action will allow an increase in the density of industrial development within existing industrial areas.			Yes No
	T Other impacts:		:	Yes No
	IMPACT ON PLANTS AND ANIMALS			
8.	Will Proposed Action affect any threatened or endangered spe	cies?		
	Examples that would apply to column 2 T Reduction of one or more species listed on the New York Federal list, using the site, over or near the site, or found on the site.	or		Yes No

			1 Small to Moderate Impact	2 Polential Large Impact	3 Can Impact Be Mitigated by Project Change
	ī	Removal of any portion of a critical or significant wildlife habital.		7	Yes No
	T	Application of pesticide or herbicide more than twice a year, other than for agricultural purposes.			Yes No
	ī	Other impacts:			Yes No
9.		Proposed Action substantially affect non-threatened or non- angered species? NO YES			
	Exa T	mples that would apply to column 2 Proposed Action would substantially interfere with any resident or migratory fish, shellfish or wildlife species.			Yes No
	T	Proposed Action requires the removal of more than 10 acres of mature forest (over 100 years of age) or other locally important vegetation.			Yes No
	T	Other impacts:			Yes No
10.	Will	IMPACT ON AGRICULTURAL LAND RESOURCES Proposed Action affect agricultural land resources? IN NO YES			
	Exa	mples that would apply to column 2 The Proposed Action would sever, cross or limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc.)		i i	Yes No
	ī	Construction activity would excavate or compact the soil profile of agricultural land.			Yes No
	T	The Proposed Action would irreversibly convert more than 10 acres of agricultural land or, if located in an Agricultural District, more than 2.5 acres of agricultural land.	1		Yes No

		,	Small to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Mitigated by Project Change
	ī	The Proposed Action would disrupt or prevent installation of agricultural land management systems (e.g., subsurface drain lines, outlet ditches, strip cropping); or create a need for such measures (e.g. cause a farm field to drain poorly due to increased runoff).			Yes No
	ī	Other impacts:			Yes No

	Į,	MPACT ON HISTORIC AND ARCHAEOLOGICAL RESOURCES			
12.		Proposed Action impact any site or structure of historic, historic or paleontological importance? NO YES			
	Exa T	amples that would apply to column 2 Proposed Action occurring wholly or partially within or substantially contiguous to any facility or site listed on the State or National Register of historic places.			Yes No
	T	Any impact to an archaeological site or fossil bed located within the project site.			Yes No
	T	Proposed Action will occur in an area designated as sensitive for archaeological sites on the NYS Site Inventory.			Yes No

			1 Small to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Miligated by Project Change
	ĩ	Other impacts.			Yes No
		IMPACT ON OPEN SPACE AND RECREATION			
13.		proposed Action affect the quantity or quality of existing or future n spaces or recreational opportunities? NO EX YES			
	Exa T	mples that would apply to column 2 The permanent foreclosure of a future recreational opportunity.			Yes No
	T	A major reduction of an open space important to the community.			Yes No
	T	Other impacts:			Yes No
		IMPACT ON CRITICAL ENVIRONMENTAL AREAS			
	cha purs	Proposed Action impact the exceptional or unique racteristics of a critical environmental area (CEA) established suant to subdivision 6NYCRR 617.14(g)?			
		the environmental characteristics that caused the designation of CEA.			
	Exa	mples that would apply to column 2	(23.10.		
	T	Proposed Action to locate within the CEA?			Yes No
	T	Proposed Action will result in a reduction in the quantity of the resource?			Yes No
	Ţ	Proposed Action will result in a reduction in the quality of the resource?	:	The state of	Yes No
	Ţ	Proposed Action will impact the use, function or enjoyment of the resource?	i		Yes No
	Ţ	Other impacts:			Yes No

		1 Small to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Mitigated by Project Change
	IMPACT ON TRANSPORTATION	ť		
15. W	Ill there be an effect to existing transportation systems?			
Εx	amples that would apply to column 2 Alteration of present patlerns of movement of people and/or goods.			Yes No
T	Proposed Action will result in major traffic problems.			Yes No
T	Other impacts:			Yes No
	IMPACT ON ENERGY	ALL		
	III Proposed Action affect the community's sources of fuel or ergy supply?			
	NO YES			
E> T	amples that would apply to column 2 Proposed Action will cause a greater than 5% increase in the use of any form of energy in the municipality.		1	Yes No
Ţ	Proposed Action will require the creation or extension of an energy transmission or supply system to serve more than 50 single or two family residences or to serve a major commercial or industrial use.			Yes No
Ţ	Other impacts:			Yes No
		and the second seco		
	NOISE AND ODOR IMPACT			
	fill there be objectionable odors, noise, or vibration as a result of e Proposed Action?			
	NO YES			
E. T	xamples that would apply to column 2 Blasting within 1,500 feet of a hospital, school or other sensitive facility.			Yes No
Ť	Odors will occur routinely (more than one hour per day).			Yes No
Ţ	Proposed Action will produce operating noise exceeding the local ambient noise levels for noise outside of structures.			Yes No
T	Proposed Action will remove natural barriers that would act as a noise screen.			Yes No
Т	Other impacts:			Yes No

			Small to Moderate Impact	Potential Large Impact	Can Impact Be Mitigated by Project Change
		IMPACT ON PUBLIC HEALTH			
8.	Will	Proposed Action affect public health and safety? NO YES			
	Ţ	Proposed Action may cause a risk of explosion or release of hazardous substances (i.e. oil, pesticides, chemicals, radiation, etc.) in the event of accident or upset conditions, or there may be a chronic low level discharge or emission.			Yes No
		Proposed Action may result in the burial of "hazardous wastes" in any form (i.e. toxic, poisonous, highly reactive, radioactive, irritating, infectious, etc.)			Yes No
	T	Storage facilities for one million or more gallons of liquefied natural gas or other flammable liquids.			Yes No
	T	Proposed Action may result in the excavation or other disturbance within 2,000 feet of a site used for the disposal of solid or hazardous waste.		:	Yes No
	T	Other impacts:	TORRE	i	Yes No
		IMPACT ON GROWTH AND CHARACTER OF COMMUNITY OR NEIGHBORHOOD			
9.	Will	Proposed Action affect the character of the existing community?			
	Exa T	mples that would apply to column 2 The permanent population of the city, town or village in which the project is located is likely to grow by more than 5%.			Yes No
	T	The municipal budget for capital expenditures or operating services will increase by more than 5% per year as a result of this project.			Yes No
	Ţ	Proposed Action will conflict with officially adopted plans or goals.			Yes No
	Ţ	Proposed Action will cause a change in the density of land use.			Yes No
	T	Proposed Action will replace or eliminate existing facilities, structures or areas of historic importance to the community.		國,	Yes No
	T	Development will create a demand for additional community services (e.g. schools, police and fire, etc.)			Yes No

			1 Small to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Mitigated by Project Change
	7	Proposed Action will set an important precedent for future projects.		E	Yes No
	T	Proposed Action will create or eliminate employment.		R	Yes No
	ī	Other impacts:			Yes No
20.		nere, or is there likely to be, public controversy related to potential erse environment impacts?			
		NO NO YES			

If Any Action in Part 2 is Identified as a Potential Large Impact or If you Cannot Determine the Magnitude of Impact, Proceed to Part 3
